EKA PUTRI MAHARANI
eka.maharani@example.com
Jakarta

SKILLS

Languages: Python, Go, SQL
Frameworks: Django, FastAPI, gRPC
Databases: MySQL, PostgreSQL
Infra: Docker, Terraform
Cloud: AWS (ECS, RDS, S3)
CI/CD: GitHub Actions
Testing: pytest, Go test

EDUCATION

MSc Computer Science
Universitas Indonesia, 2018

BSc Computer Science
Universitas Indonesia, 2016

PROFILE

Senior software engineer with 8 years of experience building backend systems in Python and Go.

EXPERIENCE

Senior Software Engineer - Belanja Raya (2021 - present)
Lead a team of five backend engineers. Designed public REST APIs and internal gRPC services in Python and Go. Migrated a monolith on MySQL to services on AWS ECS with RDS. Built GitHub Actions pipelines for build, test and blue-green deployment. Introduced contract tests and raised pytest coverage to 90%.

Software Engineer - Finansia (2018 - 2021)
Built Django REST Framework APIs for loan applications on PostgreSQL. Dockerised the stack and wrote integration tests.

Software Engineer Intern - Telko Nusantara (2016)
Wrote Python scripts for network monitoring.
