FAJAR HIDAYAT
fajar.hidayat@example.com | Malang

SUMMARY
Backend developer with 3 years of professional Python experience at a manufacturing company.

WORK EXPERIENCE
Backend Developer - PT Pabrik Sejahtera (2023 - present)
- Built REST APIs with Flask for the factory inventory and production planning system.
- Designed PostgreSQL tables and wrote reporting queries for plant managers.
- Packaged the services as Docker containers running on the company's on-premise servers.
- Wrote automated tests with pytest for every API endpoint.

EDUCATION
BSc Computer Science - Universitas Brawijaya, 2023

SKILLS
Python, Flask, SQLAlchemy, PostgreSQL, Docker, pytest, Linux
