SKILLS

Java 17, Spring Boot
Hibernate, JPA
PostgreSQL, Oracle
Docker
AWS (EC2, RDS)
Jenkins
JUnit, Mockito

EDUCATION

BSc Computer Science
Universitas Bina Nusantara, 2019

SUMMARY

Java backend engineer with 6 years of experience building banking and insurance systems.

EXPERIENCE

Backend Engineer - Bank Merdeka Digital (2022 - present)
Designed REST APIs with Spring Boot for account opening and transfers. Wrote PostgreSQL migrations with Flyway. Ran services in Docker on AWS EC2 with RDS. Built Jenkins pipelines that build, test and deploy each service. Wrote JUnit and Mockito tests for all business rules.

Java Developer - Asuransi Prima (2019 - 2022)
Maintained Spring MVC applications on Oracle databases and built REST endpoints for the claims portal.
