Jakarta

SKILLS
Python, SQL
Apache Airflow, dbt
PostgreSQL, BigQuery
FastAPI
Google Cloud Platform
pytest

EDUCATION
BSc Computer Science
Universitas Gadjah Mada, 2020

SUMMARY
Data engineer with 6 years of professional Python experience building data pipelines.

EXPERIENCE
Data Engineer - Media Berita Nasional (2022 - present)
Built Python ETL pipelines with Airflow that load PostgreSQL data into BigQuery on Google Cloud Platform. Built an internal REST API with FastAPI so analysts can request data extracts. Wrote pytest tests for every transformation.

Data Analyst - Survei Indonesia (2020 - 2022)
Wrote Python and SQL to clean survey data and build dashboards.
