TARI WULANDARI
tari.wulandari@example.com | Bandung

SUMMARY
Machine learning engineer with 5 years of Python experience in computer vision.

EXPERIENCE
Machine Learning Engineer - AgriVision (2021 - present)
- Train image classification models in Python with PyTorch to detect crop disease.
- Serve models through a REST API built with Flask, packaged in Docker.
- Train and deploy models on AWS SageMaker; store images and datasets in S3.

Research Assistant - ITB AI Lab (2020 - 2021)
- Published two papers on plant image segmentation.

EDUCATION
MSc Artificial Intelligence - Institut Teknologi Bandung, 2021
BSc Computer Science - Institut Teknologi Bandung, 2019

SKILLS
Python, PyTorch, OpenCV, Flask, Docker, AWS SageMaker, S3
