SUMMARY
Embedded software engineer with 5 years of experience writing firmware in C and C++.

EXPERIENCE
Embedded Software Engineer - PT Sensor Pintar (2021 - present)
- Write C firmware for STM32 microcontrollers in smart energy meters.
- Develop C++ drivers for sensors over SPI, I2C and UART.
- Set up GitLab CI pipelines that build firmware and run unit tests on every commit.
- Write unit tests with Unity and Ceedling.

EDUCATION
BSc Computer Engineering - Universitas Indonesia, 2021

SKILLS
C, C++, STM32, FreeRTOS, SPI, I2C, GitLab CI, Unity, Ceedling, oscilloscope
