MAYA SARI
maya.sari@example.com | Bandung

PROFILE
Python developer with 4 years of experience building APIs for fintech products.

EXPERIENCE
Backend Developer - DanaKita (2020 - 2024)
- Built REST APIs with FastAPI for loan applications and payment processing.
- Designed MySQL schemas and optimized slow queries, cutting report time by 60%.
- Packaged services as Docker images and deployed them on Google Cloud Run (GCP).
- Wrote automated unit tests with pytest for all new endpoints.

EDUCATION
Bachelor of Information Systems - Institut Teknologi Bandung, 2020

SKILLS
Python, FastAPI, MySQL, Docker, Google Cloud Platform, pytest, Git
